

Community Action Series:

Early Learning

Presented by Rep. Deb Wallace

Did you know that 90% of brain growth occurs before kindergarten? That a child who doesn't know their numbers before kindergarten is likely to be poor at math for the rest of their life? Literacy begins at birth!

Learn which books and games are best for your child, and how you can best prepare them for school.

Come join us for an evening of discussion, guest speakers, a video (with popcorn), and more!

Thursday, Sept. 29th from 6:00 to 7:30 pm
Fishers Landing Transit Center at SR14 & 164th

We hope to see you there!
